Sacramento, CA. 95814

My name is Arthur Vitoria and I am a dairyman and have been in the dairy business for 53 years now. The purpose of this letter is to stake my opposition to the proposal by the Dairy Institute of California I urge that you consider rejecting this poor attempt by them to make the dairymen pay. As you know the Dairymen are becoming a endangered species he can't control the price that he gets for the milk he produces or the prices of products he buys in producing the milk. We face many price increases by our suppliers (fuel, insurance, supplies, feed ect.) but can't pass it on. It's like being strapped to the front of a roller coaster hang on because you are going for a ride! If the **Dairy Institute of California needs more money welcome to the real club.**

Furthermore they should get the money they want from the market and not off of the Dairymens back witch is something Dairymen can't do. As you know the interest of the Processors are much different that of the Milk Producers witch is what brings us to this problem in the first place.

Also I would like to take this opportunity to thank you for your consideration on this matter.

Oppose the pitition by the Dairy Institute of Califonia

Thank You
